CHOOSE YOUR PREFERRED COST MODEL

THE PERFECT *Business Deal !*

At Future Profilez, since we truly believe in the mantra of 'Power To The Client', hence we provide you the means to choose the best Outsourcing Cost Model that suits your business. No two people are the same, so it's only natural that no two businessmen should be as well.

01

Fixed Time/Cost

You should consider this model when the project isn't too big, scope is all defined, budget is limited. Moreover your end goal should be all set that you wish to achieve within a concrete timeframe.

Hourly Basis Method

This model is suited to those businesses where requirement is quite short, you wish to have active involvement in project progress, existing bug solving, need to maintain project and needs testing too.

02

03

Full Time Equivalent

This Model is best for businesses who feel their requirements might undergo frequent changes during project completion, or they wish to virtually work with the team to share their vision & work towards the company's long-term future.

FULL TIME EQUIVALENT

For a Long-Term Vision Of Business Expansion

In this type of collaboration, the client gets a team of developers who work hand in hand with the client to achieve a common goal. If you, as the client have a rough idea of what you want, but want professionals to take it from there, then opt for this cost model.

Benefits:

- ▶ You can keep a close watch on the progress and efficiency of the project.
- ▶ You can ask for a replacement team it feels that the work can be further improved upon.
- ▶ We sent a weekly time sheet regarding the resource estimation for your approval.
- ▶ No need for hiring, staffing, training and retraining multiple times in a single project.
- ▶ The development team you hire will work under your direct supervision at all stages.
- ▶ It's no longer your job to worry about the peak load and off peak load, it's our duty.

FULL-TIME
AND SAVE ON A
TON OF **DIME**”

FIXED TIME/COST MODEL

MINIMUM RISKS & Maximum Productivity

The Fixed Time/ Cost project is one that is completed within a defined timeframe and budget. Here the complete decision-making power and bonus lie in the Future Profilez.

Benefits:

- ▶ It is the most commonly used engagement model for all types of businesses.
- ▶ Clients at regular intervals are provided with interim reviews, periodic status and reports.
- ▶ Payment percentages are decided on the basis of major milestones that are achieved.
- ▶ The client has to pay advance and startup cost.
- ▶ Highly suitable for businesses with budget constraints, so usually very cost-effective.
- ▶ For a fixed sum of money, the deadlines are handled by developers themselves.
- ▶ Highly suitable for companies that have executed such projects earlier as well.

If Hourly Payment Is The Preferred Business Option For You, simply [CLICK HERE](#)

HOURLY- BASIS MODEL

As the name suggests, projects are completed within defined number of hours. Hence the client pays only for the hours that developers actually spend working on the project.

Features:

The cost is based on the total hours spent on the project here. So any additional work costs an additional amount of money.

The outsourcing company will send complete detailed report for the hours spent and cross-verification can be done from the client.

Just as the project deal is agreed upon, client receives estimation about the total hours involved for approval.

Projects with shorter time frame are more suited to an hourly-based approach, since here the “quality over quantity” of work has to be ensured by the handling company.

Advantages:

- ▶ This model is highly suitable when it is difficult to plan the volume of work and set requirements in advance.
- ▶ As a client, you get to make changes at any stage of the project, that fit your vision and structure more suitably.
- ▶ If the work seems to extend for too long you will be able to stop the development process altogether at any moment.
- ▶ The project can be carried out with complete flexibility, and even though you pay more for more hours of work, the work done during that time is also in complete sync with your imagination.

LOTS OF HAPPY CLIENTS

A thrilled client is the end goal for any successful establishment, and that certainly is the case for us. Nothing pushes us more than learning that we’ve accomplished our clients’ goals and vision just as or better than what they imagined.

Below, we’ve included a list of client testimonials to demonstrate their satisfaction with the projects that we have undertaken and fulfilled as per their needs-

Kevin Benwal
Australia

Future Profilez, is a professional company. They did a great job for me. They actually delivered above expectation. I am definitely going to hire them again.

Paul Wyatt
Thailand

They're the BEST in creating websites. They go above and beyond to deliver. I have been working with them for close to one year. They're the go to person for all my website projects. Highly recommend!

Derick Addo
Spain

A very good company who we are working with on other projects. Technically excellent and there's nothing they can't do. They always meet or exceed expectations.

Mike Spencer
US

Future Profilez is professional, easy to work with and willing to make changes until the project is complete & satisfactory. I received my website in a very timely fashion and am very pleased with it. I highly recommend this team.

Joel putland
Canada

A very good developer. Once they are clear on what is required, they get on and deliver. We deliberately took time to set out our requirements and we are pleased with the end result.

Peter Stall
Denmark

Future Profilez is a very professional company! they are very experienced and deliver what they offer. Vishal is an excellent project manager! They really did a great job! I 100% recommend them!

With solutions focused on everything, Future Profilez has revolutionized the way applications are delivered to entrepreneurs and startups.
